

# The POD Library

STARTER GUIDE

# Welcome to the POD Library

Congratulations! You're now part of an exclusive club of POD entrepreneurs who have access to a growing collection of ready-made POD designs. No more endless tinkering in Canva, just upload designs that sell instantly.

We add at least 10 new designs every week. You'll receive an email with an overview, and you'll find the latest files in the POD Library.

Do you have any ideas or requests? Feel free to send an email to [membership@rowenarousseau.nl](mailto:membership@rowenarousseau.nl) with the subject line "POD library request."

Have fun selling!

Love,  
Rowena

The  
POD  
Library

# Rules & Conditions

**This is important, so read it carefully:**

- The designs in the POD Library are intended exclusively for use on POD products. You may not resell them as individual files; you may only print them through your shop.
- Do you have a subscription and want to cancel it? All designs must be removed from your shop, along with proof that they are no longer online. If you don't demonstrate this, we won't officially consider your subscription terminated.
- The designs are intended for commercial use, but only you have access within your license – so you may not share them with others or post them on shared platforms.
- In case of misuse or violation, we are forced to terminate your access without refund.
- We reserve the right to modify, remove, or expand designs without prior notice.

# Step-by-step plan

But wait... before you upload your designs: you'll need a print-on-demand provider. We recommend Printify. Through Printify, you can instantly create, customize, and connect print-on-demand products to your shop.

## Step 1 – Sign up to Printify

Watch these videos to get a flying start:

[Sign up for Printify here \(for free!\) →](#)

## Step 2 – Open a shop on Temzli / Shopify / Etsy

Choose for yourself where you would like to sell your products.

[Open a shop on Etsy →](#)

[Open a shop on Shopify →](#)

If you're just starting out, I recommend choosing a marketplace like Etsy or Temzli first. This is often cheaper and can generate sales without you having to actively promote your products.

### **Step 3 – Connect your Printify account to Etsy / Temzli / Shopify**

Watch this video to see how to connect your Etsy shop to Printify:

Hot tip: Printify has a YouTube account with tons of tips and tricks! Check out the YouTube channel [here](#).

# Uploading designs from the POD Library

Curious how to upload a design to your Printify print-on-demand product? Watch this video!

## Tip: Duplicate your product

*This means you only need to replace the design with your new one. The SEO title, description, and tags are all already in place. This allows you to add tons of designs to your shop in no time!*
